

# AAPG Pacific Section Annual Meeting, Anchorage, Alaska 21 – 24 May, 2017

Exhibit. Present. Sponsor

Alaska remains a strategic component of the nation's energy reserves and is reversing decades of declining production with new fields, new discoveries and gas development.

Although this is a cyclical time in the oil industry, the PSAAPG meeting is an opportunity to cement, not only professional relationships, but long-term friendships as well.

In addition to exhibiting, you have the opportunity to become a corporate sponsor of the conference or field trips, or to present professional papers and posters highlighting your own advances in research and their applicability to today's efforts to find oil, gas and geothermal resources that will be economic going forward.

## Why you should exhibit at the PSAAPG 2017 meeting:

- Anchorage is a spectacular meeting venue in one of the most geologically active areas on the planet.
- Anchorage has great appeal as a visitor destination.
- Once in a lifetime field trips will be a major draw for attendees from the lower forty-eight and beyond.
- Exposure to oil industry professionals, with several exploration and production companies based in Anchorage.
- Compact conference venue with great access to attendees.
- Icebreaker, with poster sessions in the exhibit area.
- Extra acknowledgements to our exhibitors will be made throughout the meeting.

For additional information on exhibiting, check out our website, [www.psaapg2017.com](http://www.psaapg2017.com) or contact the exhibit chair, Keith Torrance, at [keith.torrance@uicumiaq.com](mailto:keith.torrance@uicumiaq.com)

Innovating the Future:  
Discovery to Recovery
